Cover Letter

Dear Madam / Sir,

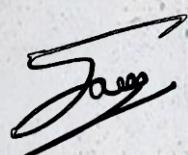

My name is Saw Han Htwe. I am writing to inquire about potential employment in your office. My qualification is in architecture and specialty in between residential architecture, interior design and site coordination and I hope to contribute to your company in this interesting overlap of disciplines.

I received my Bachelor Degree in Architecture at Thanyin Technological University in December 2015. I worked intensively, individually as well as in team work. I have 3.5 years of practical experience while working in Myanmar, I have dealt with projects such as residential and different kinds of commercial projects. Throughout my aptitude career, I have demonstrated consistent success applying capabilities as an assistant architect to achieve high-reaching standards.

During my three and half years professional experience, with a proven record of preparing construction drawings, submission drawings for authority organizations by checking laws and regulations in advance, design development, schematic design, material selection, site coordination and selection of materials specializing in residential and commercial projects.

I would like to take this opportunity to thank you for considering my application and I eagerly look forward to your response and the opportunity to discuss further. Please feel free to contact me on my details on my resume. I am available for an interview at your convenience.

Sincerely,

Saw Han Htwe

Architect / Interior Designer

BAR COUNTER 3D

The technical drawing illustrates a rectangular concrete foundation slab. The top horizontal dimension is labeled as 277, and the bottom horizontal dimension is 270. The left vertical dimension is 115, and the right vertical dimension is 10. Reinforcement bars are indicated by a grid pattern: a top layer of 8 bars spaced at 45 units, a middle layer of 6 bars spaced at 45 units, and a bottom layer of 5 bars spaced at 45 units. A thick vertical line on the left side indicates a thickness of 40. A diagonal hatching pattern covers the bottom 10 units of the slab's height. An arrow points from the right towards the bottom right corner of the slab.
